

Louis Whitmore Jr.

QA Tester | Game Tester

Lwhity92@outlook.com • (443) 684-4268 • Florida, USA • [Itch.io](#) • [Portfolio Site](#)

QA-minded professional with a track record of structured inspection, compliance documentation, and issue tracking across regulated industries, paired with formal training in Agile and Google Project Management methodology to support cross-functional production coordination. Certified in Google Project Management and IT Support. Completing a B.S. in Web & Digital Design at UMGC in December 2026.

Professional Experience

TroubleCub Games, Remote 2022, Dec 2025 – Present

Founder & Producer | Two Little Wounds

- Authored and maintain a Prototype Development Planner tracking milestones, session logs, issue reports, and playtest notes with defined success criteria for each prototype build
- Retroactively sorted 16 pieces of playtester feedback from 5 testers into a structured issue log of 4 reproducible technical bugs, 6 combat/balance issues, and art/audio notes, and added severity and status tracking..
- Maintain a high-level roadmap sequencing priorities and milestones across TroubleCub Games' ventures
- Documenting design decisions, research findings, and development issues in structured reference documents to maintain production continuity

Aspira, Remote Jul 2024 – Present

Technical Support Specialist

- Provide remote IT and technical support resolving software and hardware issues, logging and tracking client interactions in ServiceNow and Jira to streamline resolution workflows and reduce repeat issues
- Collaborate with cross-functional teams on complex technical challenges, communicating clearly across technical and non-technical stakeholders

W.M. Jordan, Newport News, VA Oct 2023 – Jun 2024

Safety Manager

- Conducted site inspections, risk assessments, and safety training for 40+ personnel, tracking findings via Excel-based logs and standardized reporting templates, and maintaining compliance documentation
- Managed quality control protocols and corrective action tracking across active construction environments requiring strict regulatory compliance

Hospital Housekeeping Services, Fort Meade, MD Aug 2020 – Feb 2022

Regional Quality Control & Safety Manager

- Performed inspections and preventative maintenance audits across several facilities on a DoD Army installation, documenting results against defined standards and issuing rework orders for non-conforming work
- Ensured compliance with OSHA, NFPA, ANSI, The Joint Commission (TJC), and Army Safety Regulations; directly supported the Regional Director's reporting to the regulatory agencies.
- Analyzed inspection trends and investigated facility/customer complaints to identify recurring deficiencies, developing corrective action plans and technical guidance to eliminate physical hazards

Education

B.S. Web & Digital Design, Minor: Computer Science (Expected) December 2026

University of Maryland Global Campus

Professional Certificate — Google Project Management 2026

Google / Coursera

Professional Certificate — Google IT Support 2026

Google / Coursera

Undergraduate Certificate — AR & VR Design 2024

University of Maryland Global Campus
